gar Refining that alarmed the short interest and the demand from that quarter, added to that first noted, resulted in a strong market for the principal Industrial stocks the reof the day. On sales of more than 100,000 shares, or more than one-fourth of the total transactions, Sugar Refining closed 3% points higher than yesterday at practically the best price recorded for it. The entire list was influenced by this movement. Brokerage houses that were free sellers of Northern Pacific and Union Pacific shares a few days ago betrayed anxiety to recover them. Northern Pacific common was exceptionally active and strong. Other features were Brooklyn Rapid Transit at a net dvance of more than 3 points, General Electric Manhattan Railway, American Cotton Oil, C., B. and Qu'ocy and United States Leather preferred The sharp advance in Brooklyn Rapid Tranalt is explained by the authoritative an-nouncement that the company has at last secured control of the Nassau system operating in the borough of Brooklyn. American Ootton Oil common was bought in expectations of a dividend from the profits of the last fiscal year of the company, while United States Leather preferred was in demand to cover shorts put without during the last day or two on a misapprehension regarding the incorporation of a large leather manufacturing concern which, having disposed of its tanning plant to the United States Leather Company, has continued in business as a manufacturer and is one of the largest customers of

the company.

The increased activity in Manhattan Railway at a net advance of 2 per cent. revived re-ports that the control of the company has practically changed hands, and that in consequence important changes in operating the property. including a change in motive power, will take place in the near future. The market for General Electric was favorably affected by a better understanding than has heretofore existed of the important bear-ing that the absorption of the Walker Company by the Westinghouse Electric Company has upon the entire industry of manufacturing electric apparatus. In the last hour the call money market began to reflect the influences work for several days past, for the rate dropped from 5 to 2 per cent. The monetary situation was further improved by receipts of \$800,000 gold from Europe and the engagement of an equal amount in London for shipment to this centre. The improvement in stock values was very nearly general, the only conspicuous exception being in American Tobacco. Of the less active shares American Spirits preferred, Read-ing 1sts preferred, United States Rubber, and New York Air Brake made the most decided progress toward a higher level. The closing was strong at about the best prices.

Sterling exchange was weak for long under the marked rise in private discount at London and the posted rate was reduced half a cent. Demand bills were not strengthened as usual by higher discount at London and cable transfers actually declined. The firmness of the local money market until near the close operated against exchange generally. Continental exchange was dull and without material change in quotations. Posted saking rates for sterling are: Sixty days, \$4.82%, and sight, \$4.85%, actual rates are: Long bills, \$4.81%, \$4.81%, \$4.81% (\$54.81%) sight drafts, \$4.83%, and cable transfers, \$4.84% (\$54.84%). Frames are quoted at 5.24% \$6.23% for long and \$5.23% \$65.22% for short; reichsmarks, 144.3-160% 45.10% for long and \$4.13-16 \$60.15 for long and \$4.1-160% 45.10% for long and \$4.1-160% 45.10% for short.
